RE: Albion-Sheridan Township Landfill Site  
Albion, Michigan

Dear Gene,

Today you should be receiving drafts of the RI/FS Work Plan, Field Sampling Plan and Health & Safety Plan for the Albion-Sheridan Township Landfill site. Please review and comment on these documents and provide written comments no later than March 27. For these and future documents, my goal for comment turn-around to WW Engineering & Science is 30 days for initial drafts and 14 days for revised documents. I believe this is consistent with the Superfund Memorandum of Agreement (SMOA) between MDNR and U.S. EPA, although I would appreciate any comments from MDNR a day or two earlier, if possible, so that I can transmit them to WW on time. Just let me know at any time if you think that you will have trouble meeting the SMOA timeframes, and we can work something out.

I'm really looking forward to working with you on this project and hope to move ahead through the RI/FS as quickly as possible. By the way, the draft QAPP should be arriving on March 19; I'll be sure a copy is sent directly to you. Please call me at (312)353-7556 if you have any questions. Thank you.

Sincerely,

A handwritten signature in cursive script that reads "Mary Beth Novy".

Mary Beth Novy  
Remedial Project Manager
